

## GOVERNOR (1977-1985 : MATHESON) [446]

### PHOTOGRAPHS, 1977-1984.

1 cu. ft. and pending microfilm

**DESCRIPTION:** This series contains photographs preserved by Governor Matheson's office which mostly depict Matheson in formal and informal situations. It is unknown whether Matheson's press secretary took the majority of these photographs; nevertheless, Matheson and his staff preserved the photographs for press and/or nostalgic purposes. A significant portion of the photographs in this series are of bill and proclamation signings, in which Matheson appears at his desk with the sponsors of the bill or proclamation standing around him. Other photographs in this series include groupings of photographs of Matheson at a Geneva Steel jobs rally, touring Bear Lake, and at MX missile testimonies in Washington, D.C. A small portion of the photographs were sent to Matheson's office from federal agencies (such as the U.S. Department of the Treasury), news agencies (such as the Deseret News), and individual photographers.

**ARRANGEMENT:** This series is arranged into general groupings as follows: dated photographs, followed by undated photographs but identifiable in part by subject, followed by undated unidentified photographs. Arrangement within the dated photographs is chronological. Arrangement within those undated but identifiable in part by subject is alphabetical by subject. Arrangement of the remaining photographs is random. Four oversize photographs are filed at the end of the series.

**RELATED RECORDS:** Additional photographs of Governor Matheson (including shots of Matheson and his family), may be found in Series 5610, GOVERNORS PHOTOGRAPHS. And Series 1642, PUBLICITY REPORTS contains similar publicity-related information.

**PROCESSING NOTE:** This series will be kept in hard copy because of the intrinsic value of

the photographs. It was processed by Kira Robertson in February 2002.

**PREFERRED CITATION:** Cite the Utah State Archives and Records Service, the creating agency name, the series title, and the series number.

#### CONTAINER LIST
